

Small Town Glory

Anita Hamilton

Lately winds are blowing
The day that she was going
Across that county line
That's just fine
Didn't take all that much
To get her life all packed up
She was ready to fly
Ready to say goodbye

Go ahead, put that pedal down and
Drive

She's going out
In small town glory
Chasing down some ol' dirt road
Nobody's hero
She's brave and lonely
And I don't know when
She's coming home

Hoping for a one-way ride
Down inter-state sixty-five
Sayin' she likes the view
She ain't passing through
Feelin' scared, feelin' strong
Little fish, real big pond
With nothing to lose
But a lot to prove

Go ahead and put that pedal down and
Drive

She's going out
In small town glory
Chasing down some ol' dirt road
Nobody's hero
She's brave and lonely

And I don't know when
She's coming home
She's going out
In small town glory
In small town glory
Chasing down some ol' dirt road
Nobody's hero
She's brave and lonely
Brave and lonely
And I don't know when
She's coming home
She's coming home

She's going out
In small town glory
Chasing down
Some ol' dirt road
Nobody's hero
She's brave and lonely
And I don't know when
She's coming home
And I don't know when
She's coming
Home
